

# Go Green with a Single Stream

## Recycling Just Got Easier!

All recyclables will now go into your new 65/95-gallon, yellow-lid recycling tote.

- ♻️ No more sorting. All recyclables are mixed together in one cart and wheeled to the curb.
- No more bins to carry. No more recyclables blowing around the neighborhood.

**All Recycling Will Now Be Collected with Automated Trucks. The Following Items Are Important for the Success of the Single Stream Program.**

- ♻️ Place recycling tote out the night prior to your scheduled collection date.
- ♻️ Place recycling cart at least **four feet away** from trash cart as well as mailboxes, basketball hoops, telephone poles or parked cars.
- ♻️ Please place your recycling cart **out only when full or near full**. Dumping carts with small amounts of recyclables wastes fuel and other natural resources.
- ♻️ Your old recycling bin is yours to keep. **Do not** place it at the curb because our automated trucks cannot dump it. Please place it inside your recycling tote to dispose of it.
- ♻️ Please cut up large boxes to place in the tote. **Do not** leave cardboard under or near recycling tote.

Included is an expandable list of recyclable items. For additional information or questions, contact us at [315-472-7455](tel:315-472-7455) or visit us at [www.dependable-disposal.com](http://www.dependable-disposal.com).
